<b>Office Action Summary</b>	<b>Application No.</b> 10/540,218	<b>Applicant(s)</b> SATO, SHIGEHARU	
	<b>Examiner</b> Urszula M. Cegielnik	<b>Art Unit</b> 3711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claims 1 and 7 are objected to because of the following informalities: Claim 1 recites in line 9, "trough". This appears to be a typographical error. Claim 7 recites the same error. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 recites the limitation "the stepped portion" in line 3. There is insufficient antecedent basis for this limitation in the claim. Claim 10 recites similar language.

Claim 6 recites the limitation, "an axle cover extending from the gearbox, and the gearbox". It is not clear what applicant is intending to claim through this recitation.

Claim 12 recites similar language.

The above are intended as examples only. Applicant is requested to thoroughly review the claims and make any necessary corrections thereto wherever appropriate but not specifically pointed out.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3711

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 4-8, and 10-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Wu (US Patent No. 6,478,655).

Wu discloses the claimed invention including a trailing arm; a bushing; a gearbox; a u-shaped groove; a hollow cylinder; a hole portion located at a vertical longitudinal position in the trailing arm; a spring (see attached sheet).

The recitation “a first hole portion...for allowing a protruded hollow cylinder portion to pass trough (*sic*)...” (for example only) is directed to the intended use and there are no structural limitations directed to the first hole portion as claimed. Applicant needs to distinguish over the prior art with structural limitations, *and not functional limitations.* *EA*

Claims 3 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wu (US Patent No. 6,478,655).

Wu discloses the claimed invention except for the claimed configuration of the hole portion in the trailing arm.

With regards to the claimed configuration of the hole portion, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the abovementioned limitation, since it has been held that a change in configuration would only involve routine skill in the art. *In re Dailey* 149 USPQ 47.
